

Sütçü Kız

Johannes Vermeer · yaklaşık 1660 · Rijksmuseum, Amsterdam

Bu kitle eserin içinde dolaşan, başı ve sonu aynı karede birleşen **20 saniyelik dikey 9:16 bir döngü videosu** üretebilirsin. İçinde: ① üretim adımları ② Seedance promptu ③ tablonun hikâyesi. Eserin orijinal görselini kit sayfasındaki **"Eser orijinal kare indir"** düğmesinden ayrıca indirebilirsin.

Döngüyü nasıl üretirsin?

1. **Modeli seç.** Başlangıç ve bitiş karesi verilebilen bir görselden video modeli kullan. Biz **Seedance 2.5** ile çalışıyoruz (ör. Higgsfield'de "omni reference" modu).
2. **Eserin orijinal görselini iki kez yükle:** hem başlangıç hem bitiş karesi olarak. Döngüyü bu sağlar. Görsel seçtiğin orana uymazsa model kenarları kendisi tamamlar; istersen önce görseli orana göre kırabilirsin.
3. **Ayarlar:** oran **9:16**, süre **20 sn**, ses **kapalı**. İlk denemeyi düşük çözünürlükte yap; rota beğenilirse yükselt.
4. **Promptu yapıştır** (sonraki sayfa) ve üret. Değiştirmeden kullan.
5. **Kontrol et:** son kare ilk kareyle aynı mı? Figürler değişti mi, yeni nesne çıktı mı? Videoyu iki kez art arda izle; ek yerini fark etmiyorsan hazır.
6. **Gerekirse kırp:** sondaki fazla duraklamayı kes; doruk anını (yavaşlanan yer) kısaltma.

Kredi notu. 7 Ekim 2026'da Higgsfield'de Seedance 2.5 ile 20 sn yaklaşık 480p: 60, 720p: 140, 1080p: 240 kredi tutuyordu. Fiyatlar değişebilir; sonuçlar modele göre değişir, birkaç deneme gerekebilir.

PROMPTUN MANTIĞI

Giriş: ilk ve son kare aynı, tek kesintisiz kamera yolu. · 3B kuralı: tablo gerçek bir mekân gibi kurulur ama boya dokusu korunur. · Eseri koru: figürler kıpırdamaz, yalnız kamera hareket eder. · Zaman blokları: yakın ayrıntı → yükseliş → **doruk** (yavaşlama) → mekânın derinliği → ilk kareye dönüş. · Yasaklar: kesme, ani zoom, yeni kişi/eşya yok. Kendi tablona uyarlarken bu sırayı koru.

Olduğu gibi kopyala, yapıştır

Create a 20-second vertical 9:16 image-to-video film, using the supplied image as the exact first frame and matching final frame. One continuous camera journey through Vermeer's quiet Delft kitchen, with macro detail across the table, a gradual emotional reveal of the woman's face and a seamless return.

Build the supplied scene as complete 3D geometry while preserving Johannes Vermeer's painted appearance: the soft north light from the left window, the luminous pointillé highlights on the bread and basket, the lead-tin yellow and ultramarine blue, the fine craquelure and the oil-paint surface. The small table with its dark green cloth, the bread basket, the earthenware bowl and jug, the blue-and-white stoneware jug, the wicker basket and brass pail hanging on the wall, the leaded window, the bare whitewashed wall, the row of blue Delft tiles along the floor and the wooden foot warmer on the floor all occupy real space. The woman has a fully dimensional body beneath her clothes. As the camera moves, reveal the sides and backs of objects and of the figure hidden from the frontal viewpoint, matching their visible design. The upper wall and the lower part of the table and floor continue the same room.

IDENTIFY AND PRESERVE THE FIGURE

One woman stands behind the table on the right of centre, turned three-quarters to the left, head bowed, eyes lowered to the bowl.

She wears a white linen cap, a small white collar, a mustard-yellow bodice laced at the front, green-blue sleeves rolled up above the elbows, a deep ultramarine blue apron tied high at the waist and a red skirt. Her right hand holds the handle of a reddish-brown earthenware jug tilted over the bowl; her left hand supports the jug from below. A thin thread of milk falls from the spout into the bowl. She keeps her exact pose, hands, face and expression. She does not move, blink, speak or look at the camera. The milk thread keeps its exact painted shape. No other person appears.

0-3 SECONDS – ENTER AT THE BREAD

Hold the exact supplied image for about half a second.

The camera then moves forward and descends to the front of the table, just left of centre, toward the bread basket.

At macro distance, reveal the crusty broken bread rolls with their bright painted dots of light, the woven wicker of the basket and the folds of the blue cloth hanging over the table edge, as rounded objects with real thickness. The nearest roll passes softly out of focus beneath the lens. The woman remains farther back, establishing depth immediately.

3-7 SECONDS – UP THE MILK THREAD

Glide past the stoneware jug to the earthenware bowl and rise slowly along the thin thread of milk toward the spout of the tilted jug.

Reveal the curved inner wall of the bowl, the glaze and rim of the jug, and the deep ultramarine apron behind them as dimensional folds: raised creases catch the window light, deeper folds stay in shadow.

Keep a steady upward momentum.

7-10 SECONDS – ALONG THE ARM

Curve along her right forearm and the rolled green-blue sleeve toward her shoulder. Reveal the sleeve's thickness, the stitching of the yellow bodice and the side of her arm hidden from the frontal view.

Her shoulder crosses the near foreground; her face becomes clearer ahead; the window light shifts slowly across the wall.

10-14 SECONDS – HER FACE

Arrive in front of her face at eye level, slightly below and off-axis to the left.

Reveal the three-dimensional shape of her calm, lowered face, the soft modelling of cheek, brow and lips, the folds of the white linen cap and the small white collar, lit gently from the window.

Slow the camera for about one second with only a gentle sideways drift. Let the stillness register. Her expression is exactly as painted.

14-17 SECONDS – AROUND HER SHOULDER, THE ROOM OPENS

Continue in a shallow orbit past her left shoulder. The yellow bodice passes close as a soft foreground shape.

Reveal the bare whitewashed wall with its nail holes, the row of blue Delft tiles at the base of the wall and the wooden foot warmer on the floor. Then begin a broad rising retreat as the whole kitchen opens up again, the leaded window glowing on the left.

17-20 SECONDS – RETURN TO THE ORIGINAL COMPOSITION

Continue the retreat in one smooth arc back onto the original frontal axis.

Reveal the woman, the table and the window again; align the window, the hanging basket and pail, the table, the bread, the bowl and jug, the foot warmer and the wall with their positions in the supplied image.

Gently decelerate into the exact opening viewpoint, lens perspective, framing, colour and exposure. End on a frame matching the supplied image so the next repetition flows directly into the opening.

CAMERA, STYLE AND CONTINUITY

One uninterrupted physical camera path: down to the bread basket, up the milk thread to the jug, along her arm to her face, around her left shoulder to the wall and foot warmer, up and back to the original frontal view.

Natural motion blur and shallow depth of field during macro passes; transfer focus smoothly to the next detail on the route. Foreground objects pass the lens only because the camera moves around them; the woman never changes pose or moves toward the camera.

One coherent room with stable geometry, stable perspective and consistent soft light from the left window. Preserve Vermeer's oil-paint texture and colour at every scale.

No cuts, crash zooms, dissolves, flat canvas flyovers, wall-relief effects, scene morphing, additional people, new objects, changed faces, changed expressions, changed gestures, extra decoration, text or logos.

Akan sütte başka hiçbir şey kıpırdamıyor

KİM BU KADIN?

Bir hizmetçi, işine tamamen dalmış hâlde süt döküyor. Modelin kimliği bilinmiyor. Rijksmuseum'un tarifiyle süt akışı dışında kompozisyonda her şey durağandır; resmin gerilimi bu sessizlikten gelir.

IŞIĞIN NOKTALARI

Işık soldaki pencereden gelir ve nesnelerin yüzeyinde küçük renkli noktalarla hissedilir: ekmeğin kabuğunda, sepette, sürahinin kenarında. Vermeer parlıtyı çizgiyle değil, bu boya noktalarıyla kurar.

ÖRTÜLEN AYRINTILAR

Rijksmuseum'un teknik incelemelerine göre Vermeer, figürü daha anıtsal göstermek için arka plandaki sürahi rafını ve ateş sepetini sonradan boyayla örttü. Duvarı, bakış noktasını belirleyen küçük iğne deliği hâlâ duruyor.

Sıradan bir mutfakta sıradan bir iş: Vermeer akan bir süt ipini yüzyıllardır aynı anda durduruyor.

VİDEODA NEYE BAK?

- Ekmek ve sepette ışığı taşıyan küçük boya noktalarına.
- Süt ipine: resimde akan tek şey.
- Kamera yüzde yavaşladığında beyaz başlığın kıvrımlarına ve aşağı bakan gözlere.
